

## **Graham Pennington**

For almost three decades, Graham Pennington has been practising Bowen therapy, naturopathy and acupuncture in his busy, multi-practitioner clinic in Warrnambool.

As a young naturopathic graduate, he was introduced to the Bowen technique when he took over the running of Ossie Rentsch's clinic in Hamilton in 1989. Graham has spent the last twenty eight years practising, teaching and developing the Bowen technique. In 2012 he published the book *A*

*Textbook of Bowen Technique.*

Over the last five years Graham has presented his assessment-based Bowen workshops to more than 1300 therapists in eighteen different countries. In his book and in his workshops, he presents principles, theory and holistic assessment guidelines that enable the therapist to provide a treatment that is targeted to the specific needs of each patient.
